

PRETUTE - Architecture, Files & Features Guide

Primary Contact: Mitalee Maurya | Phone: +91 87572 01351 | Email: mitaleemaurya@gmail.com

1. System Overview & Fullstack Architecture

The PRETUTE E-Commerce Platform is a high-performance modern fullstack application comprising a **React 19 + Vite** frontend and a **Node.js Express + MongoDB / Memory fallback** backend. The platform replicates an authentic **Flipkart-style** user experience (Category Quick Strip, Assured badges, 2-column catalog filtering, PDP dual buttons, and 4-step accordion checkout with COD security captcha), while routing all user contact submissions directly to **mitaleemaurya@gmail.com** via FormSubmit AJAX.

2. Flipkart-Style Features Breakdown

Feature	Component & Implementation	User Experience & Details
Category Quick Strip	CategoryStrip.jsx	12 circular category icons with labels below header (All Offers, Baby & Kids, Montessori, Nursery, Maternity, etc.) with instant filter routing.
Flipkart Assured Badges	ProductCard.jsx	Authentic F-Assured tag, green rating pill (4.8 ★), strikethrough MRP, and calculated discount percentage (e.g. 28% off).
2-Column Filter Catalog	CategoryView.jsx	Left filter sidebar (categories tree, price slider, 4★+ rating, discount %) + top Flipkart sort bar (Popularity, Price low/high, Newest).
PDP Dual Buttons & Tools	ProductDetailModal.jsx	Yellow ADD TO CART & Orange BUY NOW dual buttons, Available Offers card (bank cashback, promo codes), and 6-digit Pincode delivery checker.
4-Step Accordion Checkout	CheckoutModal.jsx	Step 1: Login summary (Mitalee Maurya / 8757201351) -> Step 2: Address -> Step 3: Order Summary -> Step 4: Payments (COD with 3-digit Captcha).
Delivery Tracking Stepper	CheckoutModal.jsx & ProfileView.jsx	Post-purchase 4-step delivery progress bar (Ordered -> Packed -> Shipped -> Delivered) with persistent Order ID and Cancel Order restock.

3. Directory Structure & File Work Summary

File Path	Key Responsibilities & Implemented Features
frontend/src/components/common/Categor yStrip.jsx	Flipkart top category icon strip beneath header with 12 round pills and instant category routing.
frontend/src/components/product/ProductC ard.jsx	Displays Flipkart Assured badges, green rating pills, strikethrough original prices, and discount percentages.

frontend/src/components/product/CategoryView.jsx	2-column catalog view with Left Filter Sidebar (price slider, rating, discount filters) and top sort tabs.
frontend/src/components/product/ProductDetailModal.jsx	PDP with dual action buttons (Yellow Cart, Orange Buy Now), Available Offers card, and Pincode delivery checker.
frontend/src/components/checkout/CheckoutModal.jsx	Flipkart 4-step accordion checkout (Login -> Address -> Summary -> Payment with COD 3-digit Captcha security code).
frontend/src/components/customer/ProfileView.jsx	Flipkart-style 2-column account management (Sidebar, Personal Info, Addresses CRUD, Orders tracking & live cancellation).
frontend/src/components/contact/ContactView.jsx	Contact page submitting inquiry forms to mitaleemaurya@gmail.com via FormSubmit AJAX with immediate feedback.
frontend/src/context/StoreContext.jsx	Global React state management for cart, wishlist, orders, customer session, address management, and routing.
backend/server.js & backend/routes/	Express REST API providing `/api/products`, `/api/orders` (with `/cancel` restock), `/api/customers`, and `/api/auth`.
